Experience

Full Stack Developer Intern

April 2025 – October 2025

KS Softech - Navi Mumbai

- Automated Google Search Console indexing workflow using n8n, processing 2000+ URLs daily and eliminating manual SEO team intervention, with automated email alerts for failure monitoring
- Developed REST APIs for real-time Zoho CRM and Klaviyo integration, syncing customer data and automating email campaigns for e-commerce and transportation clients
- Built and configured 5+ client websites across e-commerce, pharma, and SaaS sectors using WordPress and Shopify, implementing custom functionalities and database schemas
- Configured RSS feed automation via cron jobs for content aggregation and auto-publishing to WordPress blogs at scheduled intervals
- Customized e-commerce platforms with WooCommerce vendor management, inventory systems, and Stripe payment integration

Projects

Sumitra Cargo Movers - logistics Website

[Github Link](#) 

- Developed a full-stack logistics management platform with RESTful APIs for form submissions, inquiry tracking, and blog management, replacing a legacy WordPress site
- Built an admin dashboard for managing customer queries and content with role-based access control
- Implemented responsive design and will be deployed on Vercel.
- Tools Used: React.js / Node.js / Express.js / MongoDB / Tailwind CSS / REST APIs

Skills

Languages: Java, SQL, Php, Python, TypeScript, JavaScript, HTML, CSS.

Technologies: Node js, React, Tailwind.

Platforms and Tools: Docker, Git, Bash, n8n, WordPress, Shopify, MySQL.

Education

Pillai College of Arts, Commerce and Science

2022 – 2025

BSc in Computer Science - CGPA 7.37
